Personal Profile

I am founder of my own floristry business, Blooming Useful Floral Art & Design based in Bisley, nr Woking in Surrey.

When launching my studio business back in 2011. I went back to Merrist Wood College where I gained floristry qualifications Level 3, 4 and 5, becoming a Master Florist. I have been lucky to have exhibited at Hampton Court Palace flower show and Chelsea Flower Show during my time at Merrist Wood College in Guildford.

Since leaving college I have gone on to gain further skills in the floristry world, including that of floristry tutor and have since begun teaching floristry with Surrey Adult Learning, whilst also enabling me to teach independently to groups and individuals.

I enjoy the organisation of putting together lesson plans then the interaction of passing on my inspiration to other like minded flower folk.
